

## IB1385 HEMERA

iCOM-4 DIN-rail case

### BENEFITS

- Compact.
- Fastening of the cable and its structure to the box.
- Supplied with a DIN rail bracket.
- Supports wall mounting.
- Pre-equipped with pigtails and optical connectors.
- Scalable up to 4 SC.

### APPLICATIONS

The iCOM-4 is a very compact termination box that is mainly DIN rail mounted in industrial cabinets. This one includes a fiber protection cassette. In addition, it is pre-equipped with pigtails for soldering to an optical connection cable.

### GENERAL CHARACTERISTICS

## GENERAL

| CHARACTERISTICS                                |        |                 |
|------------------------------------------------|--------|-----------------|
| NAME                                           | UNIT   | ICOM-4          |
| Max. capacity: SC SIMPLEX                      | Fibers | 4               |
| Cable input                                    |        | 1               |
| Max. cable diameter                            | (mm)   | 8               |
| Tray: number of splices (mechanical or fusion) |        | 4               |
| Dimensions (HxDxW)                             | (mm)   | 120 x 50 x 100  |
| Weight                                         | Kg     | 0.3             |
| Operating temperature                          | °C     | -25 / +70       |
| Materials                                      |        | Steel           |
| Colour                                         |        | RAL 7035 (grey) |
